RESEARCH INSTITUTE &  
**FOUNDATION**

**The name Magee is synonymous with health care for women and infants.**

More than 100 years of innovation and excellence have propelled Magee to national prominence. Today, Magee stands at the forefront of women’s health research. Individually and collectively, our researchers are changing the landscape of health care through the lens of women’s health research. This incredible work is impacting lives today, tomorrow, and well into the future.

Thanks to the support of its donors, Magee has touched the lives of countless women and infants throughout the Pittsburgh region and beyond. Philanthropic support has helped to ensure that the discoveries made at the laboratory bench are translated into advancements at the patient bedside.

Researchers at Magee are challenging conventional thinking and finding better methods of treatment and prevention. Despite many advances, they never lose sight of the reality that their work is far from being complete. There are more questions to be asked, more theories to be challenged, more hope to be developed. With the continued support of donors, Magee will remain at the forefront of women’s health research.
